greater comfort

MERIT® SERIES

14HPX

Energy-efficient,
economical
heat pump

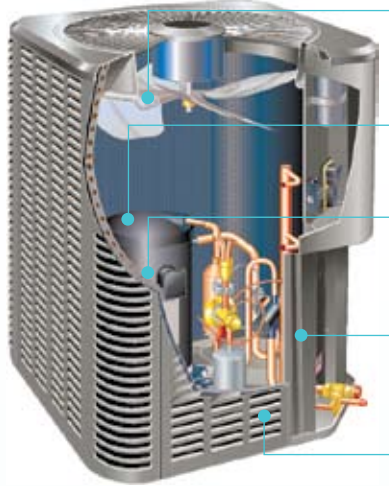

Enhanced control for greater comfort

Lennox' Merit® Series 14HPX is the ideal solution for homeowners who want reliable cooling and heating performance, budget-friendly affordability and money-saving energy efficiency. What makes the 14HPX even better is the enhanced humidity control that comes with the optional addition of our exclusive Humiditrol® whole-home dehumidification system.* Plus, like every product Lennox manufactures, the 14HPX is designed for exceptional durability inside and out.

Ideal comfort year 'round

The 14HPX is an all-in-one cooling and heating system, perfectly suited to warmer climates. During summer months, it works like an air conditioner, extracting heat from inside your home and moving it outdoors. When the weather turns cooler, the process is reversed as the unit collects heat from the air outside and transfers it inside.

Efficient, economical cooling and heating

Direct-Drive Fan – Precision-balanced direct-drive outdoor fan is designed to provide quieter operation and longer product life.

Dependable Scroll Compressor – Provides reliable and efficient operation.

High-Efficiency Outdoor Coil – Provides exceptional heat transfer and low air resistance for high-efficiency operation.

Corrosion-Resistant Cabinet – Protects against rust and corrosion with heavy-gauge, galvanized steel construction and a durable, baked-on finish.

Durable Louvered Coil Guard – Provides long-lasting coil protection.

5-year limited warranty on the compressor and all remaining covered components.**

14HPX meets or exceeds 14.00 SEER*** (Seasonal Energy Efficiency Ratio) and 7.70 HSPF (Heating Seasonal Performance Factor)

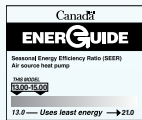

*Must be accompanied by either a variable speed air handler or furnace and the ComfortSense® 7000 Series touchscreen thermostat.

**Applies to residential applications only. See actual warranty certificate for details.

***Actual system efficiency may vary depending on the exact system match. Efficiencies are representative of a single AHRI Most Popular matched combination. Always verify actual system efficiencies through AHRI or by visiting AHRI ratings database at www.ahridirectory.org.

This NAHB Research Center Green Approved mark is your assurance that a product is eligible for points toward National Green Building Certification. Visit www.GreenApprovedProducts.com for more details.

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR® criteria. Ask your Lennox Dealer for details, or visit www.energystar.gov.

Lennox is proud of the fact that these products have earned the Good Housekeeping Seal.

Note: Due to Lennox' ongoing commitment to quality, all specifications, ratings and dimensions are subject to change without notice.
